

# PBM: Pharmacy Benefit Managers

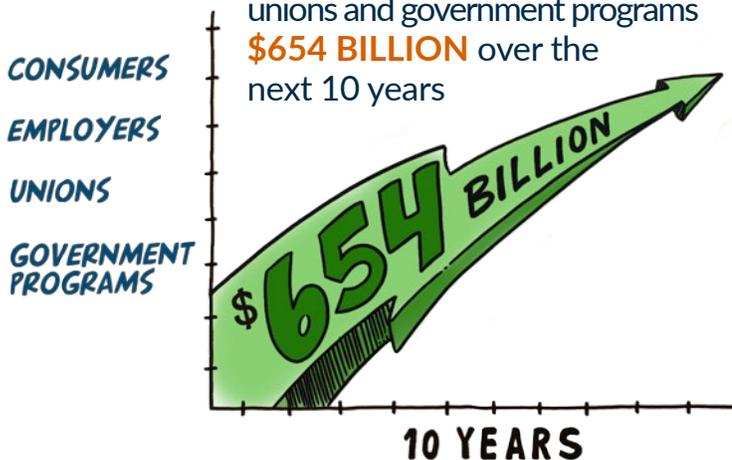

PBMs administer prescription drug plans for **266 million Americans**

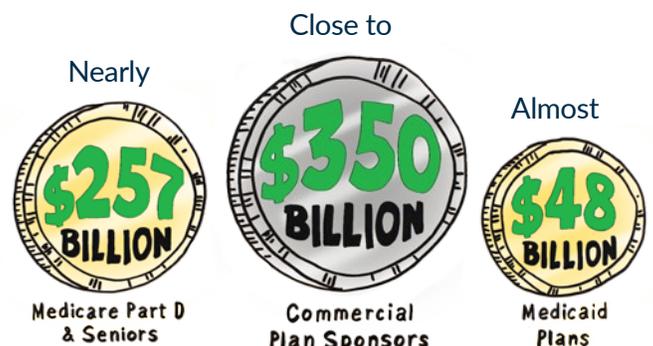

PBMs use a number of tools to reduce drug costs and improve quality.

- Negotiate rebates from drug manufacturers
- Negotiate discounts from drugstores
- Offer more affordable pharmacy channels (home delivery and discount pharmacies)
- Encourage use of generics and affordable brands
- Reduce waste and improving adherence
- Manage high-cost specialty medications

**PBMs** will save consumers, employers, unions and government programs **\$654 BILLION** over the next 10 years
